REISSUE DECLARATION UNDER 37 C.F.R. 1.175(a)

Mail Stop Reissue
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Each of the inventors for U.S. Patent No. 6,368,216 hereby declares:

1. I believe that the undersigned inventors are the original, first, and joint inventors of the invention described and claimed in the reissue application filed herewith and in U.S. Patent No. 6,368,216 on which said reissue application is based.

2. I have reviewed and understand the contents of the above-identified reissue application, including the claims, as amended by the Preliminary Amendment filed herewith.

3. I hereby acknowledge a duty to disclose information of which I am aware and which is material to patentability as defined in 37 C.F.R. § 1.56.

4. I believe that the original patent, U.S. Patent No. 6,368,216, is partly inoperative or invalid by reason of the patentee claiming more or less than the patentee had the right to claim in the patent.

5. On information and belief, the deficiency identified above arose as a result of an error by which issued claim 4 was inadvertently made dependent on issued claim 2 instead of issued claim 1. As a result of this error, the scope of issued claim 4 is narrower than that to which the applicants are entitled.

6. On information and belief, all errors being corrected in this reissue application up to the time of the filing of this declaration arose without any deceptive intent on the part of the applicants or any other party associated with the filing and prosecution of U.S. Patent No. 6,368,216.

7. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
